Dear Shreyas Gune or To whom it may concern:

This letter confirms that you were employed by Apex Systems as a temporary employee for AT&T Business Services as a Developer. Your assignment spanned from 8/01/16 to 4/14/17. Your hourly wage was \$25.00.

**Roles and Responsibilities:**

- Wrote and successfully merged Test Driven Development based features to AT&T's BizOps Escalation and Ticketing tools.
- Developed JIRA based ticket notification and logging features.
- Wrote code in following computer languages and scripting/markup languages: Python, Javascript, HTML, CSS, Javascript, JQuery, AJAX, and Redux.
- Developed API's that scale for web services with new feature integrations.
- Designed and executed SQL statements for Database integration.
- Mapped statistical data visualization using Google Charts.
- Worked in a fast paced Agile-like development environment with Scrum meets Sprints and performed quick translations and navigation of new code from different development styles and frameworks.
- - Gained experience in computer systems management and integration; Containerization/Kubernetes; Golang/Python; Automating application deployment and testing; and CI/CD tools (Jenkins, Groovy).

If you have any questions or require additional information, please contact me directly.

Sincerely,

A handwritten signature in black ink that reads "E Washington".
